

Nicolas Bohner

Noblesville, IN

www.linkedin.com/in/nicolas-bohner-254896252

Objective: Build and refine technical experience in manufacturing process precision, teamwork, and operational skills.

Education: **Bachelor of Science in Software Engineering - minors in Mathematics and Political Science**
Rose-Hulman Institute of Technology Terre Haute, IN 47803

Relevant Skills:

- Introductory power tool safety and operation; training completed in CPR and first-aid
- Quality inspection and process monitoring using measurement tools and visual inspection techniques
- Interpersonal: Resource and time management, project reporting, teamwork and collaboration
- Additional technical skills: programming, software testing and validation, source and version control

Certifications:

FAA Private Pilot Certificate: Aug 2024

- Operate with precision in dynamic, high-risk environments requiring continuous evaluation for extended periods of time.
- Interpret and apply complex technical documentation including engineering diagrams, performance graphs, charts, and checklists.
- Execute coordinated multi-axis aircraft control while also maintaining situational awareness and monitoring flight instruments.
- Demonstrate disciplined adherence to standardized procedures and safety protocols without deviation.
- Professionally communicate clearly and efficiently in time-sensitive and safety-critical situations.

Experience:

Software Developer on Financials

Full-Stack Developer | XSoft Inc., Noblesville, IN | Oct 2023 - Present

- Develop and maintain user interfaces and backend services using React, TypeScript, and C#.
- Collaborate with developers, managers, and clients to clarify requirements and provide user-focused solutions.
- Analyze system inefficiencies and implement optimizations that have improved performance by over 200% in targeted modules.
- Manage and prioritize tickets to meet deadlines and client needs while balancing multiple ongoing objectives.
- Communicate technical progress, risks, and priorities clearly to team members and leadership.
- Maintain and support live production systems, promptly addressing situations to ensure stability and reliability.

Intern on RH Venture's Software Quality Assurance Initiative, XSoft's Financials, PPOPIN

QA Developer/Full-Stack Developer | Rose-Hulman Ventures, Terre Haute, IN | Mar - Dec 2020, May 2022 - Oct 2023

- Led QA efforts including reviewing pull requests, designing and executing test plans with Selenium, identifying gaps in systems, and ensuring strict, consistent product functionality across multiple projects.
- Mentored interns and QA team members individually, created guides and documentation to streamline knowledge sharing and shorten adjustment periods.
- Applied problem-solving and research skills to implement features, optimize processes, and leverage available tools and resources.
- Delivered substantial code contributions advancing project progress and system features.
- Collaborated with project managers to design system architecture, create and present documentation and diagrams, and organize feature priorities.

Relevant Interests:

- Perform hands-on automotive and motorcycle repair and maintenance on personal vehicles, applying careful technique, inspection, troubleshooting, and safety practices.
